

Australia needs YOU!

Our world class health and medical researchers have made many life-changing breakthroughs that have benefitted the community.

But to do this they need you – many studies fall over because they just don't get enough people to participate.

It's not that people don't want to – most Australians would be willing to be involved in research that was relevant to them, but in practice only about one percent will ever take part.

Join Us is an online register connecting researchers with people who are willing to be involved in research that is relevant to them.

It's quick and simple – you sign up, provide a few details that are held in a secure database and when a relevant study comes up, you are asked if you'd like to take part.

By joining us you could help change a life. Together we can change millions of lives.

How does Join Us work?

The Join Us research register is an easy online four step process.

- 

1
Australians invited to participate online or via mass media
- 

2
Sign up to be contacted about research opportunities
- 

3
Provide some personal health information to be stored securely
- 

4
Connect with researchers about relevant studies
